While I love the outdoors and all hunting I think there are just too many on the island. The number of lives being affected is not acceptable and the gov'n't has to do something about. Fencing and increased lic's should be a no brianer. What's worth more....money or your life?

Jan 12 2011 08:13 pm

I suffered very serious injuries in 1992 as a result of a tch moose collision. I fully support your efforts to make our highways safer for everyone. I would not want anyone to have to endure the devistation and loss of quality of life like i have

Len Nippard

Salmon Cove, NL

I have had numerous close calls with moose on our highways. I would like to see more moose licenses given out to help control the moose population and help keep our freinds and families safer on the roads.

Dianne & Lorne Boone, CBS

We were involved in a moose collision about 15 years ago near the Clarendville area. We were the 2nd of 3 cars to hit that one moose. He was first struck by a car going east, he staggered across the divided highway and was down on his knees as we approached the top of the hill. We luckily just saw him at the last second-we scraped him, but it was one of the most frightening things that ever happened to me. Then, the car behind us went over the moose like it was a speed bump. Because it was approaching darkness my husband & I were very much aware of the possibility of moose being out-we were looking for them, and we still hit one, as the 2nd of 3 cars to hit it. Something needs to be done ASAP to get them away from the highways.

Gary Williams, Mount Pearl.

Eugene, if you get this before June 22, can you please contact me by email or facebook, gwilliams95@hotmail.com. I was involved in a fatal moose accident recently, in hospital for 4 nights, I want to find out how to become a member and really love to join on the 22. Lucy Stoyles has already visited my mother, but I wanted to speak with you. Please and thanks, hope to hear from you soon.

Marina O'Flaherty, Shearstown

In September 2008 my husband and I moved back home from Ontario and are residing in Shearstown. I work in Conception Bay South and since September 2008 I have seen 27 moose on our highways. Fortunately for me I have not had a close encounter but I am very careful especially night time driving. My deepest sympathies go out to the family of the young girl killed last week on the TCH near Salmonier Line. I was on the highway that night and got home around 9:10PM. Something has to be done to stop the numerous accidents that are happening in our province. Way to go Eugene and keep it up.

Eugene Nippard, chairperson of SOPAC, save our people action committee.

Our committee would like to thank you all for your stories and support.

We will keep fighting for you, lobbying the government, and making

sure the proposals that you have brought to us will be carried through.
God Bless you all, and drive safe.

Jan 7 2010 12:47 am

Bill and Bernadette Stoyles....We only truly realize the impact of a moose/vehicle accident when it happens to someone close to you. There is no rational explanation for having 130,000 of these animals terrorizing our highways. Something must be done!!

Colin Hiscock - Hopefully this petition will help in getting something done. I hit one of those buggers back in '97. Funny how in NL if you poach a moose you lose everything, but if you get killed by a moose, you become a statistic. Come on government, put the people before these animals.

Oct 11 2009 10:09 pm

I want to thank everyone FOR SIGNING THESE PETITIONS and Engene Nippard for all his hard work he has done for our family, there's not enough words to say and express how much we appreciate for your helping my Brother Alec , his Wife Kellie and his two other children who is going through a great ordeal in losing A LOVE ONE konrad feltham. You don't know until you have gone through it yourself, I've talk to people too who has lost a love one and it's not easy trying to live a life without the special person you love. To those who thinks that speed was a factor , IT WASN'T !! My son was also in a moose accident after Konrad on Aug.4th, he survive the accident, but my nephew didn't, it's not easy just knowing my son was hit by a moose was hard enough, just think about losing a love one through it,. It's not easy, our family's of Konrad is going through a hard time to come to realize that we have a love one gone from our family at such a young age. WE NEED SOMETHING DONE, AND DONE NOW. Please whoever is in charge of this, in helping to do something about it , just sit down and think it maybe one of your children , God forbid or even you. LOVE YOU

ALWAYS KONDRAD, R.I.P We will meet again someday sweetie. God Bless !! THE WINTERS FAMILY in Gambo NL.

Paradise, NL.

In April 1967 as a 6 year old child my family was involved in a moose/vehicle accident one Sunday evening by Manuals River on the TCH. The Moose and unborn calf were killed the car received heavy damage and the 5 of us went to hospital with various minor injuries. We all recovered with some small scars to show for it. My father was driving that night and since then has had 2 other moose accidents where the moose was killed and he walked away. I spend alot of time on the highways and smaller roads and know it is just a matter of time until my time is up. Please we have to do something to curtail this problem. I have thought long and hard about this and no matter how cautious you are or how slow you drive you will never protect yourself 100% from them but if the numbers were reduced it would be a big help.

I believe that everyone should have open season on them, if you know what i mean, (but that's just my opinion)! But most importantly, my heart goes out to everyone who has ever been in any type of accident and those you have lost loved ones because of it. I'm in AB at the moment, but i've heard from family that the population of moose back home is quite high, EVERYONE be careful and drive safely.

RIP Konrad #103 <33 you were one in a million. A few of us up here in AB all have stickers on the back of our vehicles in memory of you, so wherever i go a part of you is always with me.

Aug 17 2009 04:57 am

I am signing this petition because my cousin lost her her husband through a car collision with a moose and in 1992, when my son and I were out visitig another cousin, we actually had a collision with a moose and had to report it the Mounties! The car was extensively damaged and it was touch & go as to whether we could continue with our trip!

Maurren Geary-Andrews

Aug 12 2009 08:54 am

I'm signing this petition solely because I don't want another family to go through what my family has and continue to go through. My husband was killed on his way home from a church meeting. He was not driving fast. So alot of these moose collisions are NOT because of careless driving. We miss him so, so much. There is a void in our hearts that will last for rest of our lives.

Jennifer Pilgrim
Grand Falls-Windsor, NL

Aug 12 2009 02:21 am

Many tourist come to Newfoundland to see our moose. Some people rely on Moose for a living. Putting up fences is a stupid idea what about migration patterns from animals like Caribou. Sorry people only way to stop it is kill them all off or slow down. I'm sorry for your losses but this makes no sense. Moose are here and thats all we can do

Aug 7 2009 02:48 am

witnessed amoose accident,may 4th,2009.the couple involved,had 3 children on board,infant twin girls and a 7 year old son.Fortunately noone was seriously hurt,. this was awful to see,and even worst for the people involved.

SOMETHING HAS TO BE DONE. Let's help save lives!

Jul 25 2009 05:55 pm

Konrad Feltham was more of my brother than he was my best friend, losing him because of a moose accident is completely unreasonable, the government should be taking action before not after another person dies, there should be moose fences or at least whoever gets the moose licence should be aloud 3 moose instead of 1. Not everyone moose hunts so there would still be moose left and for every 1 person in NF there is 4 moose, so something has to be done about this.

Jul 20 2009 12:20 am

I Am More then Happy to sign your petition..
Dree Birchy Bay

Jul 17 2009 08:02 am

I am very happy to sign your petition as I think it is very important to get the moose population under control. This way there will be less moose on our highways, causing accidents&loss of lives.....C. Callahan
Corner Brook

Jul 16 2009 07:49 pm

I will be glad to sign your petition. There are way too many moose crossing our highways in Nfld. It is time the government did something about this serious problem which is causing serious injuries and deaths to too many people. J.Edmunds - Baie Verte, NL

Jul 16 2009 07:00 am

I will gladly sign your petition. This should have been done a long time ago, perhaps people should start suing the government for unsafe travel on our highways. I hope you do well with this.
A. Boone- Corner Brook, NL.

Jul 16 2009 06:38 am

Eugene nippard, GFW. had moose accident summer 03, now a member of the group "SOPAC" (save our people action committee) this group got together across the province to work with the public and get something done with this very serious moose problem...

Jul 16 2009 12:21 am

Ashley Jones

Jul 15 2009 05:34 pm

Justin Wheeler, Corner brook

I think its time to drastically thin out the population here.....

Jul 15 2009 05:00 am

There are way too many people getting killed by moose on our highways. Just recently there was a young 18 who just graduated killed. Something needs to be done like fences put up or brush cut away more. We all need to stand up and do something about this.

Nancy Knight, Grandfalls-Windsor. N.L.

Jul 14 2009 10:52 pm

We travel on our highways all the time and dont know when the moose is going to come out off the woods. On this highway there is alot off moose we need brush cutting here. We can help to save someones elses lives. Keep up the work.

Jul 14 2009 10:51 pm
